SUMMARY

Senior Frontend Engineer with 4+ years of experience specializing in the **React.js ecosystem**, **TypeScript**, and **JavaScript (ES6+)**. Expert in **Micro-frontend (MFE) architectures** using **Webpack Module Federation**, optimizing **Core Web Vitals**, and delivering enterprise-grade SaaS products. Proven track record in **Agile/Scrum** environments, **code reviews**, and **mentoring** engineering teams.

SKILLS

Languages	TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL, Node.js, Express.js
Frameworks	React.js, Next.js, Redux, React Query, Jotai, Webpack Module Federation, Micro-frontends
UI & Design	Tailwind CSS, Ant Design, Material UI, Responsive Design, WCAG 2.1, CDD
Tools & DevOps	Git, Vite, Webpack, Rollup, Jest, React Testing Library, GitHub Actions, CI/CD, JIRA
Cloud	AWS — S3, RDS, Elastic Beanstalk, Lambda, SQS, SNS
AI Tools	GitHub Copilot, Amazon CodeWhisperer
Core Expertise	Performance Optimization, Core Web Vitals, State Management, REST APIs, Code Review, Mentorship

WORK EXPERIENCE

Nagarro — Senior Engineer Oct 2024 – Present

- **Enterprise Task Management Platform:** Engineered a high-performance, responsive interface using **React.js** and **Tailwind CSS**; architected interactive drag-and-drop workflows that improved user operational efficiency by **25%**.
- **Performance Optimization:** Leveraged **React Query** for advanced server-state management and caching, reducing redundant API calls by **40%** and decreasing Time-to-Interactive (TTI) by **1.5 seconds**, directly improving Core Web Vitals scores.
- **Data Visualisation:** Integrated and extensively customised **Chart.js** visualisations — including custom plugins, dynamic dataset rendering, and tailored tooltip/legend overrides — to surface actionable task analytics and team productivity insights within the dashboard.
- **Technical Leadership & Code Review:** Led frontend system design and architectural decisions for complex UI modules; drove regular code reviews, enforced clean code standards, and ensured reusability and scalability across the codebase.
- **Cross-Browser Compatibility & Accessibility:** Ensured consistent rendering across Chrome, Firefox, Safari, and Edge, and maintained compliance with **WCAG 2.1** accessibility standards across all delivered UI components.

Nagarro — Engineer / Associate Engineer / Intern Oct 2021 – Oct 2024

- **Micro-frontend Architecture (Automotive DMS):** Led the frontend migration of a legacy monolithic application to a decoupled **Micro-frontend (MFE) architecture** using **Webpack Module Federation**, eliminating deployment conflicts and reducing software release cycle time by **30%**.
- **Reusable Component Library & Design System:** Authored a standardized, scalable **React component library**, ensuring 100% UI/UX consistency across 5+ independent enterprise modules and accelerating sprint velocity by **20%**; documented components and enforced design token usage for team-wide adoption.
- **State Management Migration:** Led application state migration from **Context API** to **Jotai**, eliminating unnecessary re-renders and improving runtime performance across data-heavy views.
- **Quality Assurance & Testing:** Implemented automated unit and integration testing suites using **Jest** and **React Testing Library**, maintaining an **85% code coverage** baseline and reducing production bugs by **15%**.
- **Agile/Scrum Delivery:** Collaborated in Agile/Scrum ceremonies (sprint planning, retrospectives, daily stand-ups) within a cross-functional team, consistently delivering high-priority features on schedule.
- **Award:** Honored with the **Nagarro Cheerboard Award (2023 & 2024)** for exceptional technical excellence, cross-functional leadership, and commitment to high-priority project delivery.

PROJECTS

blueprintUI *React.js, TypeScript, CSS3, Rollup, npm* [Live demo](#)

Built an open-source, strongly typed **UI component library** using **React.js** and **TypeScript** following **Component-Driven Development** principles with full IntelliSense support. Configured **Rollup** for dual **ESM/CJS** output with tree-shaking for optimized bundle size. Published to **npm** with semantic versioning and component documentation to support developer adoption.

Bibliotheca *React.js, Node.js, Express.js, MySQL, AWS* Library Management System

Built a full-stack **Library Management System** with a **React.js** frontend, **Node.js/Express.js** RESTful API, and normalized **MySQL** schema. Deployed on **AWS** using **Elastic Beanstalk**, **RDS**, **S3**, and **SQS/SNS** with **Lambda** for event-driven notifications. Automated build and deployment via **GitHub Actions** CI/CD pipeline with IAM least-privilege security.

EDUCATION

2021 **Master of Computer Applications (MCA)** — J.C. Bose University of Science and Technology, Faridabad

2018 **Bachelor of Computer Applications (BCA)** — DAVCC – MDU, Faridabad

CERTIFICATIONS

NagarroU Frontend Excellence — React, Redux, JavaScript

HackerRank Advanced JavaScript Certified, SQL Certified
