SUMMARY

Senior Frontend Engineer with 5+ years of experience in **React.js**, **TypeScript**, and **Micro-frontend (MFE)** architectures using **Webpack Module Federation**. Proven track record delivering enterprise SaaS products, optimizing **Core Web Vitals**, and leading teams in **Agile/Scrum** environments.

SKILLS

Languages	TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL, Node.js, Express.js
Frameworks	React.js, Next.js, Redux, React Query, Jotai, Webpack Module Federation, Micro-frontends
UI & Design	Tailwind CSS, Ant Design, Material UI, Responsive Design, WCAG 2.1, CDD
Tools & DevOps	Git, Vite, Webpack, Rollup, Jest, React Testing Library, GitHub Actions, CI/CD, JIRA
Cloud	AWS — S3, RDS, Elastic Beanstalk, Lambda, SQS, SNS
Core Expertise	Performance Optimization, Core Web Vitals, State Management, REST APIs, Code Review, Mentorship

WORK EXPERIENCE

Nagarro — Senior Engineer Oct 2024 – Present

- **Enterprise Task Management Platform:** Engineered a scalable, responsive **SPA** using **React.js**, **TypeScript**, and **Tailwind CSS**; architected interactive drag-and-drop workflows and reusable component architecture, improving user operational efficiency by **25%**.
- **Performance Optimization:** Leveraged **React Query** for server-state management, caching, and data synchronization; reduced redundant **REST API** calls by **40%** and Time-to-Interactive (TTI) by **1.5s**, directly improving **Core Web Vitals** (LCP, CLS, FID) scores.
- **Data Visualisation:** Integrated and customised **Chart.js** visualisations with dynamic datasets, custom plugins, and tooltip/legend overrides to surface actionable analytics and team productivity insights within the dashboard.
- **Technical Leadership & Code Review:** Led frontend system design, component architecture, and UI module decisions; conducted regular **code reviews**, enforced **clean code** principles, and mentored junior engineers to improve team delivery quality.
- **Cross-Browser Compatibility & Accessibility:** Delivered consistent rendering across Chrome, Firefox, Safari, and Edge; enforced **WCAG 2.1** accessibility standards and **semantic HTML** best practices across all UI components.

Nagarro — Engineer Jan 2023 – Oct 2024

- **Micro-frontend Architecture (Automotive DMS):** Architected and migrated a legacy monolith to a decoupled **Micro-frontend (MFE)** architecture using **Webpack Module Federation**, enabling independent deployments, eliminating release conflicts, and reducing release cycle time by **30%**.
- **State Management & Performance:** Migrated application state from **Context API** to **Jotai**, eliminating unnecessary re-renders and significantly improving **runtime performance** and responsiveness across data-heavy views.
- **Award:** Honored with **Nagarro Cheerboard Award (2023 & 2024)** for technical excellence, cross-functional collaboration, and consistent delivery of high-priority features.

Nagarro — Associate Engineer Jan 2022 – Dec 2022

- **Component Library & Design System:** Designed and built a scalable **React component library** with reusable, accessible components and enforced **design token** usage; ensured **UI/UX** consistency across 5+ enterprise modules and improved sprint velocity by **20%**.
- **Testing & QA:** Authored unit and integration test suites using **Jest** and **React Testing Library**; maintained **85% code coverage** baseline, reducing production bugs by **15%** and improving release confidence.
- **Agile Delivery:** Consistently delivered high-priority features on schedule within **Agile/Scrum** ceremonies including sprint planning, retrospectives, and daily stand-ups across a cross-functional team.

Nagarro — Trainee Oct 2021 – Jan 2022

- Contributed to feature development on the Automotive DMS project while ramping up on **React**, **TypeScript**, **REST APIs**, component-driven development, and **Agile/Scrum** workflows within a cross-functional enterprise team.

PROJECTS

blueprintUI *React.js, TypeScript, CSS3, Rollup, npm* [Live](#)

Open-source **React/TypeScript UI component library** following **Component-Driven Development (CDD)** principles with full **IntelliSense** and **type safety** support. Configured **Rollup** for dual **ESM/CJS** output with **tree-shaking** for optimized bundle size; published to **npm** with **semantic versioning** and component documentation to support developer adoption.

Bibliotheca *React.js, TypeScript, Node.js, Express.js, MySQL, JWT, AWS* **Library Management System**

Full-stack **Library Management System** with a **React.js/TypeScript** frontend, **Node.js/Express.js RESTful API**, **JWT-based authentication**, role-based access control, and normalized **MySQL** schema. Deployed on **AWS** (Elastic Beanstalk, RDS, S3, SQS/SNS, Lambda) with **GitHub Actions** CI/CD pipeline and **IAM** least-privilege security.

EDUCATION

2021 **MCA** — J.C. Bose University of Science and Technology, Faridabad

2018 **BCA** — DAVCC – MDU, Faridabad

CERTIFICATIONS

NagarroU Frontend Excellence — React, Redux, JavaScript

HackerRank Advanced JavaScript Certified, SQL Certified
